-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3753

1. This action is in response to a restriction requirement filed October 2, 2006. A restriction requirement was mailed October 31, 2006. Applicants' election of the claims of Group I without traverse is noted. The holding of abandonment mailed October 2, 2006, has been withdrawn in view of a petition mailed December 15, 2006. Applicant's election of the claims of Group III of the restriction requirement mailed October 31, 2006, without traverse is noted. Following a review of that subject matter of the claims of the instant application, a new restriction requirement is included below. Claims 87-96 (originally included in Group III) are deemed to be patentably distinct from the remaining claims 66-86 which has resulted in a new restriction requirement. Claims 87-96 are now included in a new Group IV. Claims 1-96 are pending.

Restriction Requirement

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-21, drawn to a regulated fluid system including a filter, classified in class 137, subclass 544+.
 - II. Claims 22-65, drawn to a pressure regulator classified in class 137, subclass 505+.
 - III. Claims 66-86, drawn to valve including a cover, classified in class 137, subclass 377+.
 - IV. Claims 87-96, drawn to a method of making a pressure regulator, classified in class 137, subclass 15.19.
3. The inventions are distinct, each from the other because of the following reasons:
- Inventions of the claims of Groups II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that
- (1) the combination as claimed does not require the particulars of the

subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because combination is a regulated system breathed by a human. The subcombination has separate utility such as pressure regulated fluid system. The claims of Group II and III are related as combinations usable together. The claims of Group III have separate utility as a valve cover. The claims of Group IV have separate utility as a method of making a pressure regulator and includes the recitation of method steps not recited in the claims of Group III. The inventions of the claims of Groups III and IV are related as a combination and method of making.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
